

Fran Budiman

Full Stack Web Developer

626-215-4803 | franbudiman14@gmail.com | [Github](#) | [LinkedIn](#) | [Personal Website](#)

I am a Web Developer driven by my passion for problem-solving and my desire to build and create. I have always been an avid fan of art and design, which often comes into play as a coder. Prior to this, I received a BA from UC Irvine in Sociology and worked in the insurance industry. My wide range of skills and experience have created a well-rounded developer out of me, and I am looking forward to applying those skills to build a better world.

Skills

Technical: HTML5 | CSS3 | JavaScript | Node | Ruby on Rails | Express | Handlebars | Angular | PostgreSQL | MongoDB | jQuery | Bootstrap | API | Git | Github | Heroku

Projects

[Zombieland: The Journey Back](#) | HTML | CSS | JavaScript | jQuery
An exciting role-playing game set in a zombie apocalypse world.

[Recipe-It](#) | Ruby on Rails | CSS | Bootstrap | PostgreSQL | HTML
A CRUD-able recipe database app, where users can post recipes of popular restaurant menu items, comment, like, and more.

[Sugar Rush](#) | Node | Express | MongoDB | JavaScript | HTML | CSS | Handlebars | Bootstrap | jQuery | Parallax
Created as a group project, Sugar Rush is a dessert delivery app targeted towards young adults and late-night snackers.

[Petsy](#) | Node | Express | MongoDB | Angular | JavaScript | HTML | CSS | Bootstrap
A social/listings app where users can post about pet-related issues such as lost/found pets, pets for adoption, and more.

Experience

RT Specialty | *Online Rater* | Los Angeles, CA (2013 - 2015)
Work individually and as a team to assist brokers in quoting products using online systems, ensure that all client information is correct, and to identify and request any missing information.

Transformed Insurance & Law Office of Thomas S. Prince | *Administrative Assistant* | Arcadia, CA (2012 - 2013)
In charge of clerical duties such as: sorting/sending mail, making scans/copies, data entry, filing documents, accounting duties, phone calls, and other duties as needed.

Education

General Assembly | Web Development Immersive | Los Angeles, CA (2015-2016)
A 12-week program consisting of 500+ hours of both in-class and after-hours studies. During this course, I completed a total of 4 projects, including 1 group project, all in one-week sprints. Technologies, languages, frameworks, and libraries include:
HTML5 | CSS3 | JavaScript | Node | Ruby on Rails | Express | Handlebars | Angular | PostgreSQL | MongoDB | jQuery | Bootstrap | API | Git | Github | Heroku

University of California, Irvine | Bachelor of Arts in Sociology, September 2012
